

PROVEN MILITARY TECHNOLOGY NOW AVAILABLE THROUGH CEDAP

WOLF PACK

The easy-to-use, flexible, multi-mission system

■ WOLF PACK IS A MODULAR DAY/NIGHT/THERMAL REMOTE VIEWING SYSTEM

used in physical security, tactical operations, contraband interdiction, search and rescue, evidence recovery, and surveillance applications. Wolf Pack's ergonomic efficiency, light weight, and compactness, combined with its extreme durability have resulted in successful deployment on land and at sea by military and civilian organizations worldwide.

■ WOLF PACK, IN ALL ITS APPLICATIONS, ENHANCES OPERATOR SAFETY AND EFFECTIVENESS.

In physical security and tactical operations, Wolf Pack provides stand-off viewing capability enabling users to look around corners, over walls, under and around vehicles, up stairways, and in many other hard to reach or dangerous areas. In its various search applications, Wolf Pack can often eliminate the need for personnel to use ladders and scaffolding, put hands into blind spaces, or make risky confined space entry decisions.

■ FROM AFGHANISTAN TO THE ARCTIC, WOLF PACK'S MODULAR, FIELD RECONFIGURABLE DESIGN

HAS PROVEN ITS VALUE while operating in the worst environmental conditions. All system components (including batteries) are user interchangeable, wet or dry, and are virtually maintenance-free. The CEDAP CT/AT kit provides users with a flexible system configuration suitable for multiple law enforcement missions.

WOLF PACK FEATURES

MIL-SPEC DURABILITY
water-proof • pressure-proof

LONG-REACH 15' SEARCH POLE:

Plenty of stand-off distance in tactical environments, lots of flexibility in search applications, and it collapses to 34" for transport and storage.

TWO HEADS ARE BETTER THAN ONE:

Get the best thermal and night vision imagery using the included C7d and C2d camera modules. No image quality compromises, and a back-up is always available.

HIGH PERFORMANCE THERMAL IMAGER:

The C7d thermal camera module is equipped with a 320x240 pixel sensor; today's gold standard in uncooled thermal imaging.

NO NEED FOR SEPARATE, HAND-HELD, NIGHT VISION AND THERMAL IMAGERS:

The Wolf Pack CT/AT kit comes complete with both a pistol grip and a camera articulation section. Quickly configure your system for hand-held or pole mounted remote viewing to meet changing mission requirements.

HIGH CAPACITY BATTERY:

Get extended system operating times of up to 10 hours.

CT/AT KIT INCLUDES:

- C7d high resolution thermal camera module
- C2d active night vision camera module
- CA5d interchangeable camera articulation section
- CA8d interchangeable camera pistol grip
- D1d flat panel display pack
- DA1d red screen filter for night / dark operations
- DA2d sun hood
- EGd folding extendible 15' carbon-fiber search pole
- P4d high capacity NiMH rechargeable battery pack
- P1d NiMH battery charger
- H1d body harness w/ extenders
- CC1d coiled connecting cable 10'
- TC1d fitted transport/storage case w/built-in rollers

ABOUT CEDAP

THE COMMERCIAL EQUIPMENT DIRECT ASSISTANCE PROGRAM (CEDAP) IS ORGANIZED UNDER THE DEPARTMENT OF HOMELAND SECURITY and was “established to assist smaller communities in acquiring and using commercially available technologies to prevent, deter, and respond to terrorist attacks as identified in state homeland security strategies”.

CEDAP DIRECTLY PROVIDES ELIGIBLE LAW ENFORCEMENT AGENCIES WITH TECHNOLOGIES SUCH AS WOLF PACK. Since it is a direct assistance program, there is no requirement for matching funds from the recipient. Agencies selected through the CEDAP process receive their requested equipment at CEDAP organized and funded technical training events. Further information on CEDAP is available from the Responder Knowledge Base by following this link <http://www.rkb.mipt.org/>

THE CEDAP APPLICATION PERIOD OPENS FOR 30 DAYS AT A TIME, during which interested agencies complete a streamlined on-line request. Should your agency be interested in applying to CEDAP for a Wolf Pack CT/AT kit, we encourage you to complete the following FAX-Alert form. With your contact information on file, we can provide notification of the next CEDAP application period.
